LITH-O-ROLL NOW OFFERS SPECIAL "UV" COVERING MATERIALS FOR RECOVER OR COMPLETE. PLEASE CALL FOR QUOTE AND MINIMUM QUANTITY REQUIREMENTS.

Thank you

for choosing Lith-O-Roll products.

We first started making replacement press rollers in 1958. From that humble beginning we have earned and continue to enjoy our World-Wide reputation as the leader in "quality-first" print and industrial rollers.

While it requires a great deal of effort to produce the precision metal shafts, our proprietary rubber formulas, and developing the craftsmanship required to successfully bring everything together "just right" time after time; Your continued satisfaction with our products makes this all worthwhile.

While we have added many new items to this year's roller line-up, you may also notice that many others have been removed. This is a natural result of the diminishing popularity of certain press models. As the printing world continues to evolve, and we adjust to these changes, we will strive to offer you the items that you want, need, and **ask** for. *And*, for the very best in value and quality, always **ask** for Lith-O-Roll brand products by name!
